

Non Serious Adverse Drug Reactions Report

Start Date:2016-09-07 End Date:2016-09-08

Study :EMR700623-541	Investigator :Ying Zhong	Country of Investigator :China	SiteNo:C05			
Subject No :C05-0132	Subject Initials :HQL	DOB :07/16/1980	Sex:Female	Race:Asian	Height:166cm	Weight:57kg
First administration date of batch :			Batch number :			
Study Drug	Start Date	Dose	Change in Dose			
Gonal-f New Pen Stimulation Treatment	08/27/2015	225				
Adverse Event	Start Date	End Date	Time related to study treatment	Causality to study drug	Severity	
OHSS	09/08/2015	09/16/2015		Related	Mild	
Causality Factors	Action Taken with Study Treatment	Other action taken	Outcome	AE Special Interest	AE dose limiting toxicity	
Disease under study**(Othervalue:)	Dose not changed	None	Resolved			
Event Description:Abdominal distention , ultrasound prompt ascites , Hydroxyethyl Starch 130/0.4 and Sodium Chloride Injection 500ml , ivgtt bid calcium gluconate injection 10ml+dextrose injection 500ml ivgtt qd						
Subject received concomitant medications:						
Does the subject have any relevant past or present medical conditions:Yes						
Condition	Start Date	Related to study condition	Ongoing			
Fallopian tube repair anaplasty	UK-Unk-2011	Not on treatment/medication				

07-SEP-16
